INTRODUCTION

The intercollegiate membership examinations of the Royal College of Surgeons in Ireland is a measure of surgical competence at an early stage in a surgeon's career in training. For many generations of surgeons, taking the MRCS examination is seen as an internationally recognised benchmark of the standard reached by a surgeon. Over the years the exam has been reviewed and is kept up to date with the expected standard of practice of early career surgeons, setting them on a pathway

towards their chosen surgical specialty. RCSI is an internationally recognised leader in the delivery of surgical education and training. Choosing RCSI for your membership is a great honor for our college and we pride ourselves in being a supportive college and fostering a community of RCSI members and fellows.

In choosing RCSI as you prepare for your MRCS examination, we have provided a range of educational and preparative supports for you. We want to give you every opportunity to pass the examination in your first attempt. In addition to the on-line preparation supports, we also deliver a number of examination preparation courses where we utilise our data on where examinees need most support. Our aim is to get the best from you during the examination. RCSI analyses all aspects of the exam and we tailor our supports accordingly.

Becoming a Member of RCSI is an internationally recognised mark of achievement in your surgical career to date. It will give employers, regulators and senior colleagues confidence in your abilities as a surgeon. I am most grateful for your choosing RCSI and it is a great privilege for us to support you in your surgical career and we welcome you to the RCSI surgical community.

Mr Kieran Ryan

Managing Director, Surgical Affairs,
Royal College of Surgeons in Ireland

“ Becoming a Member of RCSI is an internationally recognised mark of achievement in your surgical career to date. It will give employers, regulators and senior colleagues confidence in your abilities as a surgeon. ”

Mr Kieran Ryan

Managing Director, Surgical Affairs,
Royal College of Surgeons in Ireland

WHAT IS THE MRCS AND WHY TAKE IT?

MRCS AT A GLANCE

The intercollegiate MRCS Part A is a written paper using multiple choice questions (MCQs) and Part B is an objective structured clinical examination (OSCE).

The MRCS Part A examination uses single best answer MCQs designed to test knowledge of both applied basic science and principles of surgery in general.

The MRCS Part B OSCE tests candidates in the sections below:

Anatomy and surgical pathology

Applied surgical science and critical care

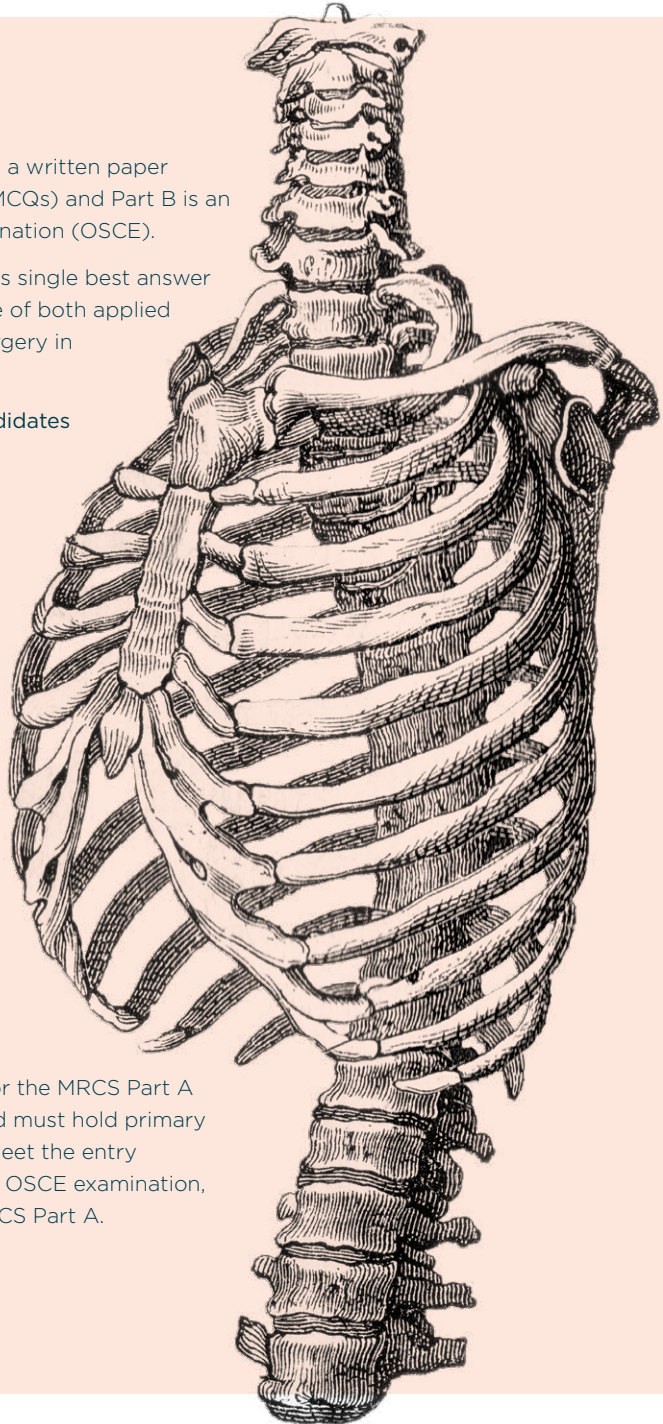

Clinical and procedural skills

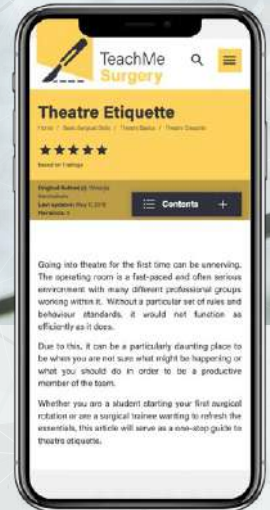

Communication skills

ENTRY REQUIREMENTS:

To meet the entry requirements for the MRCS Part A examination, candidates must hold a primary medical degree qualification. To meet the entry requirements for the MRCS Part B OSCE examination, candidates must first pass the MRCS Part A.

TEACHME SURGERY AND ANATOMY

TeachMe Series which will provide MRCS candidates sitting MRCS Part A with RCSI free access to TeachMe Surgery and TeachMe Anatomy (including both question banks with over 2000+ MCQs combined).

MRCS - PART A

MRCS Part A of the MRCS is a five-hour MCQ examination consisting of a three-hour paper (Applied Basic Science) followed by a two-hour paper (Principles of Surgery in General), taken on the same day.

The Applied Basic Science paper will consist of 180 questions and the Principles of Surgery in General will consist of 120 questions. The papers cover generic surgical sciences and applied knowledge, including the core knowledge required in all 10 specialties, as follows:

- 1. Paper 1 Applied Basic Science**
- 2. Paper 2 Principles of Surgery in General**

MRCS - PART A

PEARSON VUE CENTRES

The MRCS Part A is delivered via computer-based testing centres in partnership with Pearson VUE in over 165 countries including Ireland, UK, Egypt, Bahrain, Jordan, India, Pakistan, Malaysia, Singapore, Australia and more!

All candidates must book their test centre seat within the dedicated schedule window for each diet. The College will notify candidates of this schedule window and you will receive an email from Pearson VUE on the day when the test schedule window opens.
